

Call for Papers

5th University of Kansas International Conference on XBRL: Transparency, Assurance, and Analysis

April 29-30, 2011

Some Potential Topics

- Audit Analytics and Risk Assessment in XBRL Environment
- Assurance on Financial Statements in XBRL Environment
- Attestation of XBRL Documents
- Corporate Social Responsibility Reporting and XBRL
- Disclosures & Transparency in Business Information
- Emerging Global Taxonomy Architectures
- Financial Analysis And Continuous Monitoring With XBRL
- Quality Aspects Of Taxonomies
- Relationship Between XBRL And Business Intelligence
- Socio-Technical Aspects of XBRL Use and Adoption
- XBRL And Other Semantic Technologies
- XBRL in the Cloud
- XBRL in the Public Sector

Objectives

The main objective of the conference is to provide an environment to share knowledge and best practices and stimulate collaborations and discussions to assist the realization of the full potential of XBRL. In addition, the conference activities are intended to challenge the participants, both academics and practitioners, to think beyond what is currently being done to enhance the use of XBRL and XBRL-GL in the digital economy. To stimulate the thought process, in addition to traditional paper presentations, there will be two panels.

Panel I: "How Does XBRL Affect Business Intelligence and Transparency? Perspectives from regulators, filers, information intermediaries, and users."

Panel II: "Where to from here? The future of research on XBRL and aligned technologies".

Sponsored by
